

## Birth Tubs & Towel Service Options

**(A) FOOTHILLS RENTAL: INFLATABLE POOL.....\$200**

Inflatable birthing pools measure approximately 65x53 with a water depth of 18-22"

Your rental also includes a liner, air pump, and a filling hose.

We will drain and deflate for you.

Typically given to you at the 36-38 week visit.

**(B) FOOTHILLS RENTAL: AQUADOULA.....\$250**

The Aquadoula is a sturdy material made of foam and plastic so that it's comfortable but not collapsible. The water temperature is maintained with a heater so there is no need to boil water to keep the temperature perfect. It's always at the right temperature! Includes liner and clean filling hose. I will drain and remove for you postpartum. 54" x 27"

**(C) PURCHASE: OCEAN REEF INTEX POOL.....\$100+**

This is the most popular "birth" pool on Amazon. It is intended as an outdoor kiddie pool so it is a little lower and wider than a standard blow-up birth pool. It should only be used for birth one time.

We can drain this pool but parents will need to plan to deflate or clean out the rest of the way themselves. You will also need to purchase a pump/air compressor, hose, and anything else you feel that would make it suitable for waterbirth.

This is a good option if you're uncomfortable using a birth pool that has been used by someone else.

**(D) TOWEL SERVICE.....\$50**

Towel service includes white linens with towels, washcloths, receiving blankets, a large adult blanket, and bowls. When you elect to have this, you do not need to supply your own from the "home birth supply list."

Disclaimer: Any birth tub that is for rent by Foothills Midwifery has been used for other clients where there may be pets or other allergens. Every pool is used with a liner and is wiped down after use. Towel service includes linens that likely have also been used in previous births, they are sterilized with hot water, bleach, hydrogen peroxide and oxyclean after every use and replaced often.

*Payment: Payment for these services are expected between delivery of the products up until the final postpartum visit. We will send an online invoice when the tub or towel service is delivered. If not paid by the time care is complete, you will receive mailed invoices from my billing service and late fees may accrue. Cash, check, or online payments are accepted.*
